

Stone Brewing Co. would like to extend a warm welcome to all preferred transportation companies to visit our world famous brewery and award winning Stone Brewing World Bistro & Gardens. In addition to adhering to our own high standards of excellence, we are bound to uphold the laws and best practices guidelines established by the State of California and the County of San Diego. Above all, we strive to maintain a pleasant, orderly and safe environment for all of our guests.

As responsible transportation providers are no doubt aware, San Diego's burgeoning craft beer industry has encouraged numerous businesses to offer charter buses and limousines to clients wishing to visit the area's outstanding local breweries. Unfortunately, concurrent with this trend there has been a dramatic increase in incidents involving intoxicated and disruptive customers brought to such establishments by transportation companies.

We are therefore establishing a list of approved transportation companies which will be posted on our website (www.stonebrew.com) and provided in a welcome packet to fans who plan to bring such groups to our facility. This will allow us to build a closer working relationship with such companies and allow us to better accommodate our guests. Please note that, effective immediately, all transportation companies wishing to deliver passengers to Stone Brewing Co. facilities MUST be registered with us in advance as an approved provider. Otherwise, their clients will not be permitted to disembark and will not receive service.

Please take a moment to register with us so that we may better serve your clients. Thank you for working with us to make the San Diego brewery tour experience the best in the nation.
